FOR IMMEDIATE RELEASE

“BAY AREA DENTIST CELEBRATES ONE YEAR ANNIVERSARY WITH UNIVERSITY OF PACIFIC – DUGONI SCHOOL OF DENTISTRY”

Dr. Pries Leads Dentists of Tomorrow as Instructor With Premier University

San Jose, CA – August 19, 2008 – Dr. Kostantinos (Gus) Pries recently celebrated his one year anniversary as a pre-clinical Instructor of Restorative Dentistry with the renowned University of Pacific Arthur A. Dugoni - School of Dentistry in San Francisco.

The Dugoni School of Dentistry is a graduate school of dentistry and currently the only remaining institution in the United States accredited to teach an accelerated 3 year program leading to a DDS degree. Students complete a full continuum of pre-clinical and basic sciences classes in their first year of dental school, as opposed to years 1 and 2 at other universities, and have a compressed schedule of breaks, night-time clinic sessions and elective clinical rotations over the breaks. Despite the accelerated curriculum, students at the Arthur A. Dugoni School of Dentistry experience a number of hours of clinical education well above the national average for 4 year curricula.

“University of Pacific is one of the nation’s premier dental schools and has served the Bay Area for nearly 111 years. As a graduate of the Dugoni School of Dentistry, I was eager to participate as an instructor in the pre-clinical programs offered through the university. I wanted to be able to share my knowledge and experience in general dentistry to others who are pursuing dentistry as a career,” states Dr. Pries.

A specialist in cosmetic, restorative and family dentistry, Pries is passionate about dentistry and ensuring affordable dental care is available to all individuals. Through his private practice, Pries Dental Care, Dr. Pries offers the “Bundle of Smiles” dental health care plans for as little as \$29 a month, to patients without dental insurance.

“The Dugoni School participates in numerous community outreach programs throughout the Bay Area and Northern California to promote healthy dental care. My experience both as a student and instructor at the university has inspired me to provide affordable dental care within the community, as well. Healthy dental care is something that shouldn’t be ignored – my goal is to continue to educate the community and those interested in pursuing dentistry to promote optimum dental health,” added Pries.

To find out more about Pries Dental Care and its “Bundle of Smiles” program, contact them at 408.260.0200 or visit the website at www.priesdental.com.
